-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 6-13, and 15-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims could benefit from editorial polishing, i.e. see claim 2, line 4. The use of "in particular" is vague. In claim 17, line 1, change "1" to - -9- -. In claim 19, there is no antecedent basis for "the ring gasket".

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 6-9, 13, and 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ogi (4261947) in view of Jones et al (20020148427A). Ogi disclose joining two plastic separately molded members together by injecting a thermoplastic material such as polyethylene (col. 1, lines 47-54). The hollow plastic article is useful in vehicles such as air cleaners (col.1, lines 19-32). The result is a rigid and integrally connected article (abstract). Jones et al are merely cited as an example that vehicle intake manifolds can be made by assembling plastic parts. Therefore, it would have been obvious to one of ordinary skill in the art to do likewise in Ogi for the advantages found therein.

Claims 2, 10, and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ogi in view of Jones et al as applied to claims 1 and 9 above, and further in view of JP 20001145552. JP'552 disclose using bellows 8, 11 in an intake manifold 1 to help prevent damage from back firing; therefore, to include same in Ogi would have been obvious to one of ordinary skill in the art.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 3, 4, 11, and 12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 15, 20, and 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
